Transforming Women's Reproductive Health in Nepal

A vision for improving the health and well being of women in rural Nepal

In Jashada's words:

"I felt inferior when I first arrived at the hospital. And dirty. But the Centura team made me feel comfortable and didn't put me down. You people have done a lot for us, and it was done from your heart. I wouldn't have been able to have the surgery without your help. I hope you will continue to help other women with these same problems."

Analysis of Local Architecture by the Technical Team:

- House Form
- Schemes
- Pictures
- SDD (Seismic Damage Degree)

Information shared with Barcelona and Nepal teams (GoogleDrive)

Analysis of local architecture and location of Houses in GoogleMaps

Technical Team numbers each visited house with a code beginning with the ward number they belong to. Its location and image is placed in Google Maps, after a color code, depending on their SDD:

- | | | |
|--------------------------------|---------------------------|------------------------------------|
| ★ 5-Intervened Construction | 📍 4-Seismic Damage Degree | TOTALLY COLLAPSED. Reconstruction |
| ★ 5-Intervened Construction NR | 📍 3-Seismic Damage Degree | SERIOUS DAMAGE. Repairing. |
| | 📍 2-Seismic Damage Degree | CRACKS (walls and structure) > 6mm |
| | 📍 1-Seismic Damage Degree | SMALL CRACKS (walls) < 6mm |
| | 📍 0-Seismic Damage Degree | Not Affected. |

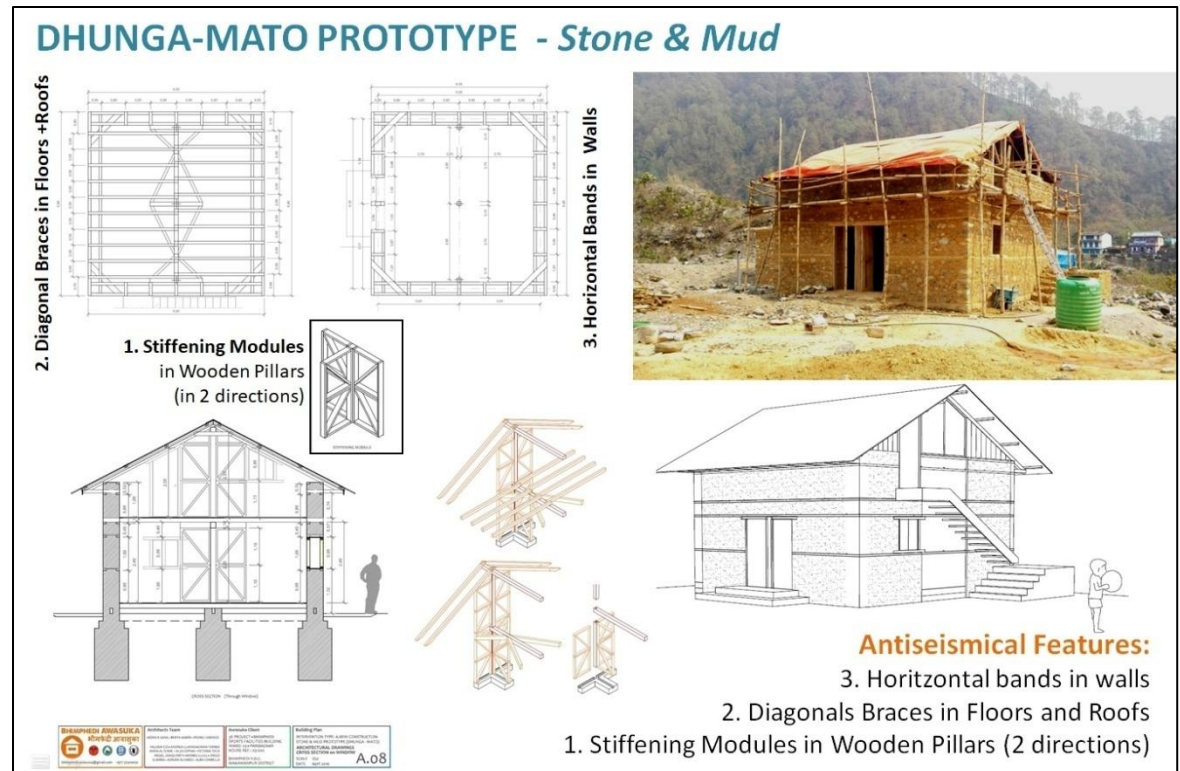

SDD= Seismical Damage Degree
